## Quality and Craftsmanship

A classic collection with shaker styling, our Marlborough range incorporates units with five piece doors which are finished with adjustable soft close hinges.

## Range

The complete Marlborough range is available in three hand painted finishes, cotton white, cobblestone and charcoal. Both of the luxurious freestanding 1200mm units can be topped with either a single or double basin sitting under a honed marble or solid surface worktop. The 600mm freestanding units also have the option of honed marble or solid surface worktop, while the 1000mm unit has the additional option of a honed granite worktop.

## Handles/Knobs

All units are fitted with chrome knobs and handles as standard, however, white porcelain knobs are available to purchase separately should you wish to give your units a different look.

## Secondary Storage and Illuminated Mirror

A coordinating tallboy features a soft close reversible door for left or right hand opening. The above-basin cabinet incorporates a single sided mirrored door, which is reversible, and two adjustable glass shelves. The illuminated mirror has an infrared sensor for touch-free activation and a heated demister pad. Alternatively, choose one of the three sizes of traditional bevelled bathroom mirror, also with a practical heated demister pad. Then add wall lights to give a more opulent style.
