- DEDICATED SONAS COMMERCIAL BATHROOMS CATALOGUE

PLANNING YOUR BATHROOM IN 3 EASY STEPS

Take time to consider your desired result and follow our guide to create your own checklist of requirements. Remember, you should always consult with a qualified installer before commencing works to ensure your product selection is compatible with your on-site conditions.

STEP 1

Consider who will be using the space when it's finished, will there be young children, adults or elderly members of the family? Compare your needs against our planner checklist and select from the relevant categories of The SONAS Bathroom Collection.

STORAGE

Will furniture work better for you rather than the traditional basin and pedestal to provide you with valuable storage capacity?

EXISTING PIPE WORK POSITIONING

Where are your existing water supply pipes, are they fed through the floor or the wall and can this impact on the feasibility of your product selection? Do you have an existing pipe outlet for your WC and will this need to be moved?

LAYOUT & SIZE OF SPACE

Be careful not to select baths, washbasins and enclosures too big for your space. Use our drawing graph to measure out your bathroom space and layout, remembering the positioning of doors and windows.

EXISTING HOT WATER SUPPLY

Check the capacity of your existing hot water tank is suitable for a new power shower or larger bath.

WATER PRESSURE CONDITIONS

Do you have gravity fed pressure or a pressurised system/booster pump? This is critical to your tap and shower selection as some models require high pressure for optimum performance.

Remember: the performance of any tap or shower is only as good as the pressure going to it.

VENTILATION

Does your bathroom have a window or do you need an extractor to provide the necessary ventilation required by many product warranties?

CAVITY OR SOLID WALLS

If considering wall hung WC's or washbasins, do your on site conditions require any additional provisions?

HOT WATER SAFETY

Consider the everyday users of the bathroom and why anti-scald or thermostatically controlled products are recommended.

ERGONOMICS

Apart from safety and technical considerations, make sure the design flows with appropriate positioning of each item. For example, if your shower enclosure opens outwards such as a pivot or hinge door, will it be hitting off a toilet or washbasin?

STEP 2

Consult with your qualified installer for technical and practical advice to ensure your product selection is compatible with your on-site conditions or that necessary provisions are made. Once agreed with your installer highlight which products are required for 1st fix and 2nd fix stage.

STEP 3

Before commencing the project, order and secure availability of your required products. Appropriate planning can avoid any stress caused by delays to your project completion.

Now sit back and enjoy!

SANITARYWARE

SANITARYWARE COLLECTION

Your bathroom should be a reflection of your character, your individuality and yet remain complimentary to its functional needs. Faced with innovative design and incomparable quality, the **SONAS BATHROOM** ceramic collection allows you to effortlessly define the mood and personality of your bathroom. We've devotedly assembled a collection that boasts exclusivity in design, the very latest in technology and water efficiency, but still remaining good old fashioned value for money.

**It's time to create your
personal bathroom experience...**

TONIQUE

The **TONIQUE** suite presents elegant curves in a truly contemporary look. A fully shrouded WC with high quality soft closing seat as standard and a 550mm washbasin which optimises your space, all at a very modest price point makes **TONIQUE** a complete solution for any bathroom.

RIMLESS DESIGN

RIMLESS DESIGN Technology provides an ultra-hygienic solution for your bathroom. With no hidden rim, there is simply nowhere for germs to hide. The rimless design also means no rim shadow which looks fantastic as well as making it easier to clean. The specially designed distributor directs the water around the bowl to effectively clean all areas every time resulting in a totally clean and efficient flush.

TAPS & SHOWERS

TAPS & SHOWERS COLLECTION

With beautiful designs and silk like quality, the **SONAS** tap & shower collection has been carefully selected to compliment the bathroom equipment in The **SONAS Bathroom Collection**.

Offering contemporary and traditional styles, this innovative and durable collection of high quality fittings and accessories ensure long lasting performance and satisfaction.

DESIGN FEATURES - TAPS

- Ceramic Disc Technology for Smooth & Efficient Operation
- Quarter Turn Ceramic Disc Technology for Smooth & Efficient Operation
- Compression Valves Requiring Several Turns to Open Fully, usually found on Traditional Ranges and are Perfect for Low Pressure Areas
- All Taps Constructed from Solid Brass Body for Durability
- Low Pressure 0.1 – 0.2 bar
- High Pressure 0.5 bar or more – Requires Pressurised System or Booster Pump
- Click Clack Wastes with Basin Mixers for Ease of Use

DESIGN FEATURES - SHOWERS

- Thermostatically Controlled
- Solid Brass Body
- Concealed Valve Options
- Exposed Valve Options
- Low Pressure – Suitable for Low Pressure Gravity Systems or High Pressure Systems
- High Pressure – Suitable for Pressurised Systems or Booster Pump
- Contemporary & Traditional Designs Available
- Complete Thermostatic Shower Kits Available
- Slide Rail Kits Available
- Fixed Shower Head Options Available
- Luxury Shower Kits Available

BEFORE YOU BUY

Before you select your tap & shower please take note that each product requires a specific minimum operating pressure for minimum flow rate performance. Always consult with a qualified installer to ensure your on-site conditions meet with the minimum requirement for your product selection.

SHOWER DOORS AND TRAYS

SHOWER DOORS AND TRAYS COLLECTION

KRISTAL Shower Doors are a specialist division of The **SONAS Bathroom Collection** focusing on the development and manufacturing of shower enclosures and wetroom panels for the Irish Market. Each enclosure undergoes strict quality control and is made to exacting European standards, manufactured from polished silver aluminium with safety toughened glass. Create the look you want from our extensive selection as each range represents its own set of design details as well as unique features for a truly distinctive identity.

Every shower enclosure in the **KRISTAL** range features **CLEAR SHIELD** water repellent glass protection which helps prevent the build of limescale, dirt and soap deposits making the glass easier to clean. Complement your enclosure with a choice of shower tray from our **KRISTAL** and **JT** Collections. Offering unrivalled size options from a range of styles our collection is sure to please.

The **STUDIO Wetroom Panel** collection defines showering quality. The luxurious aesthetics and superb specifications creates a beautiful solution to your Wetroom environment. Suitable for shower tray or tiled floor applications, the **STUDIO** collection makes a statement of style for a sleek and sophisticated look.

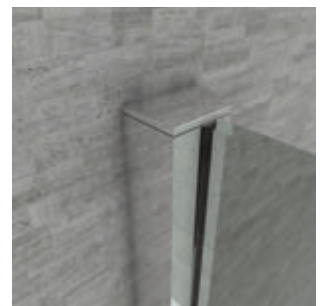

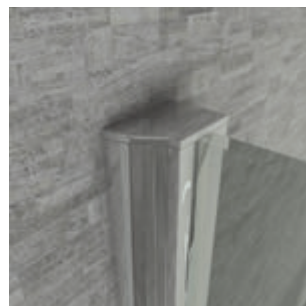

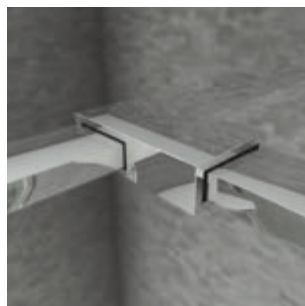

STUDIO Wetroom Panel can be fitted directly onto a tiled floor or onto a shower tray

STYLE

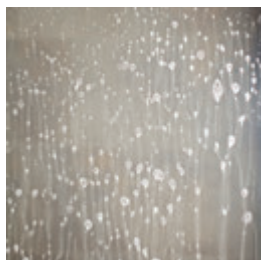

The **STYLE Range** from **KRISTAL Shower Doors** is a sleek and minimalist design that will add a look of sophistication to your ensuite or bathroom. With a slim profile design, concealed top rollers and elegant chrome handle this contemporary collection will endure for years to come.

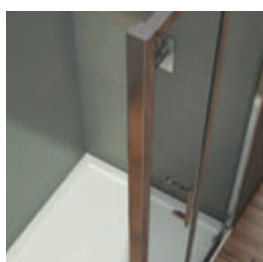

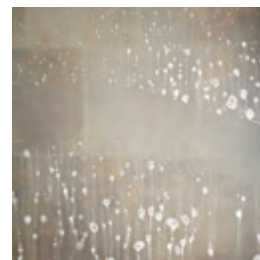

Polished silver aluminium profiles

Easy-glide nylon and brass rollers

All of our **STYLE COLLECTION** feature **KRISTAL CLEAR SHIELD** water repellent safety glass, which helps prevent the build up of limescale, dirt and soap deposits making glass easy to clean

Top cover cap

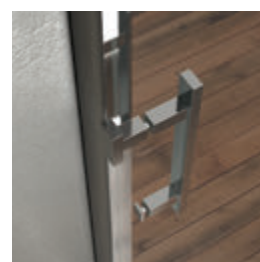

Push down bottom rollers for easy cleaning

Metal magnetic door closure

Concealment strip

Polished chrome handle

Sleek hinge

Top cover cap

SHOWER DOORS AND TRAYS

LIMIT Shower Trays

The LIMIT shower tray combines the attributes of the SLATE tray with a stepped-in base design and perimeter ledge. As they are made based on the latest material technologies, a combination of resins, gel coat and mineral stone, they are very strong against impact, comparable in this respect to natural stone. It is a product of solid core, strong and stiff, thereby preventing breakage.

Moreover, this product carries the **CE** marking, according to European legislation, in particular **EN 14527**.

LIMIT shower trays are suitable for fitting either directly **flat to floor** in a conventional installation or in a **recessed installation** for a **Wetroom look**

WHITE

ANTHRACITE

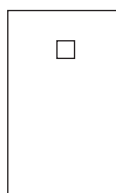

FEATURES:

- **Resin Bonded** Heavy Duty
- **ANTI-Slip** as standard

STANDARD FLAT TOP

The ULTRA CAST™ acrylic capped shower tray combines all the style and quality expected from the industry leader providing pleasure for years to come. Our contemporary design and beautiful finish enhances any bathroom environment. Manufactured to the highest specifications the ULTRA CAST™ acrylic capped resin bonded shower tray really is the perfect solution.

STANDARD 4 UPSTAND

The concept behind tiling upstands was developed to improve shower tray installation, maximise sealing benefits and minimise installation costs. The ULTRA CAST™ Upstand shower tray has an integral tiling upstand which can be installed flush to the wall on one side allowing the shower cubicle tiling to simply overlap the upstand on the other side - simple but highly effective and especially suitable for new installations and building modernisation applications.

EASY PLUMB EASY ACCESS SHOWER TRAY KIT

The SONAS Bathroom Collection now offer an **Easy Plumb, Easy Access kit** solution across its range of **KRISTAL Low Profile** shower trays.

Loved by installers, the **easy plumb** installation **kit** features adjustable legs and loose removable access panels with a unique fastening system. Designed to raise the tray off the floor, it is ideal in applications where the shower tray waste and pipework needs to be plumbed above the floor boards or concrete floor.

The access panels in each **easy plumb kit** are made to suit various sizes and therefore may need to be cut down on site to suit some tray sizes. Each panel has cut lines clearly marked to suit your tray size.

Please refer to the guide opposite to identify which **easy plumb kit** you require to make your shower tray **easy plumb**.

BATHS

BATH COLLECTION

Selecting the right bath has never been easier with a beautiful collection of options to choose from. Whether a timeless freestanding slipper bath or rejuvenating whirlpool is your idea of bathing heaven, we have the perfect solution for you.

Our rectangle and corner bath ranges are manufactured from high quality acrylic with encapsulated base boards. All baths in these ranges are undrilled for taps providing greater flexibility when choosing bath filling mixers and taps.

Single Ended baths are designed to have bath taps and waste plug at one end and are the most commonly found style in Irish homes. They are more likely to be selected when placing a shower over the bath in conjunction with our **KRISTAL** range of bath-screens.

Double Ended baths are designed with the taps and waste in the centre of bath ledge and are more aesthetically balanced. As bathroom sizes increase the double ended bath has become increasingly popular especially in larger than standard sizes.

Corner baths can often help optimise bathroom space in situations when rectangular shape baths don't suit. Also available in left and right hand offset corner options.

Free Standing baths make a stunning style statement to any bathroom space. From contemporary tubs to timeless freestanding slippers our carefully selected collection will create your perfect sanctuary.

Whirlpool baths add a touch of luxury to your bathroom space. We understand the benefits associated with Hydrotherapy and have been hand making whirlpool baths in house for more than 25 years. All **SONAS** whirlpool systems undergo a strict quality control check ensuring each and every whirlpool system is thoroughly tested before leaving the production process.

Whirlpool Systems are designed to suit each individual bath with jets carefully positioned for maximum performance. Our V Jet system and curved pipework is designed to allow maximum natural drainage after use. Each jet is double joined to the pipework using clamps and glue for a leak free connection.

OPTIONAL EXTRAS

Pump Protection prevents dry running of the system to avoid premature wear and tear.

Aqua Light creates a relaxing ambiance to enhance the hydrotherapy experience.

Bath Pillow for additional head and neck support enhances relaxation.

HEATED RAILS

HEATED RAIL COLLECTION

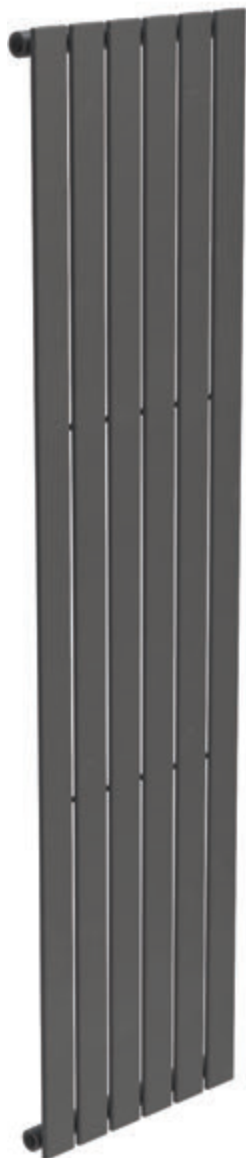

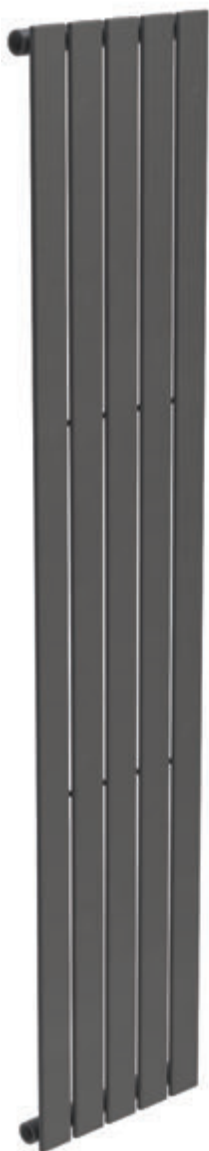

Heat is an element that is vital to the comfort of being and crucial to your bathroom experience. Create harmony and ambience in your bathroom surroundings with the SONAS Collection of Heated Towel Rails. The Heated Towel Rail collection combines performance and style with great value for money. Available in Straight and Curved design in a range of sizes, no bathroom should be without one. The Designer collection brings enhanced aesthetic features, using a flat bar design to create a luxurious feel and unique style statement.

The Traditional Designer collection beautifully complements any bathroom but especially those with a classic style and character. Essential accessories can also be the final design detail to complement your chosen heated towel rail with a radiator valve from our carefully selected range.

The **SONAS Bathrooms** Heated Towel Rail Collections are suitable for most types of conventional heating systems.

TECHNICAL SPECIFICATION

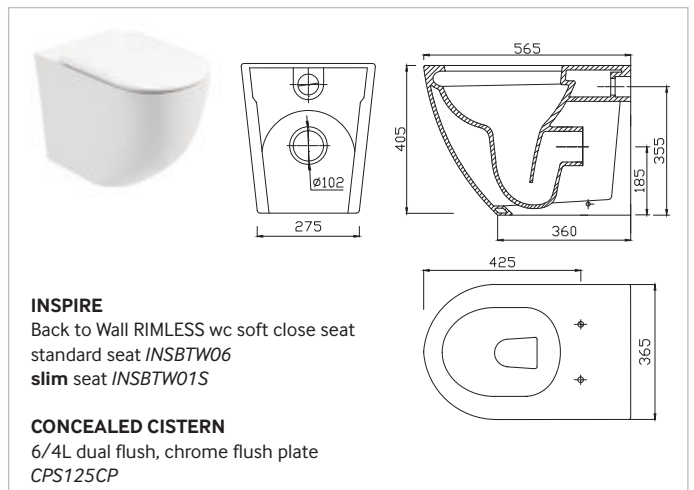

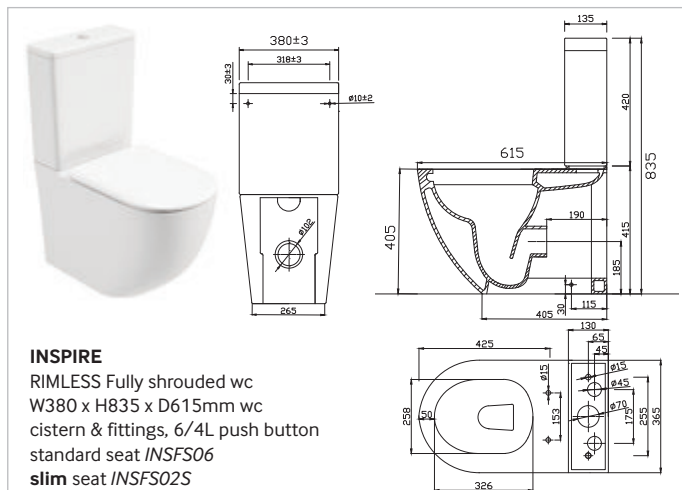

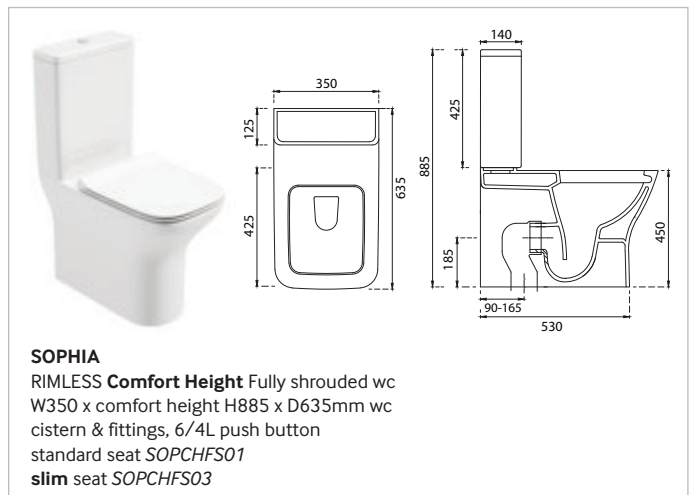

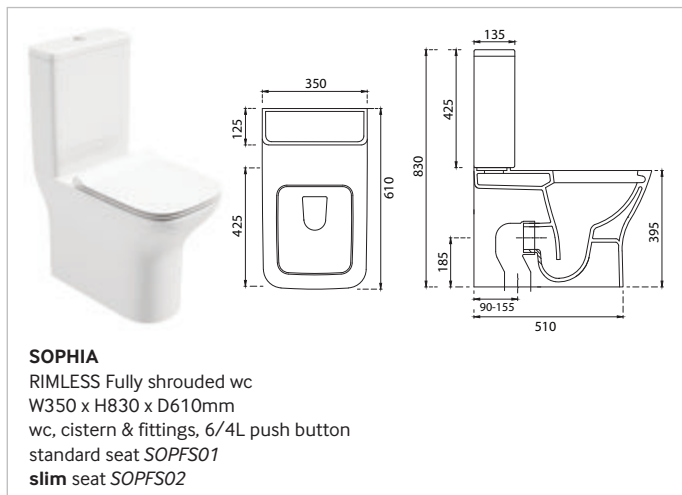

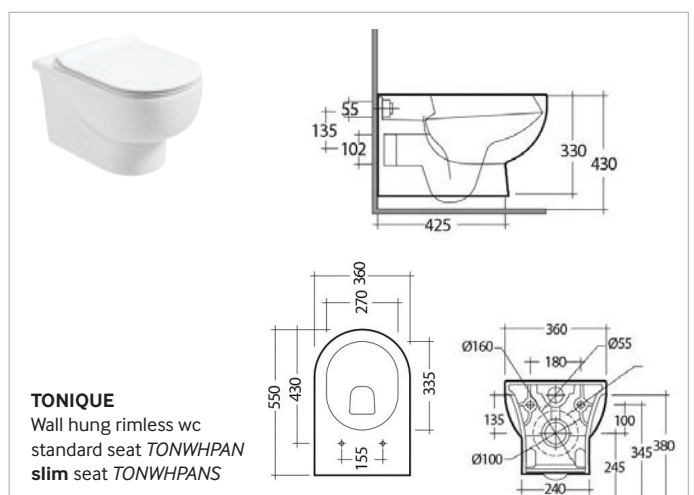

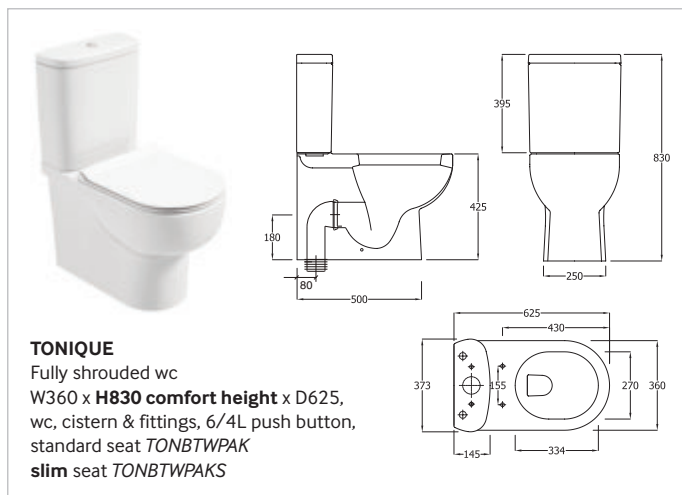

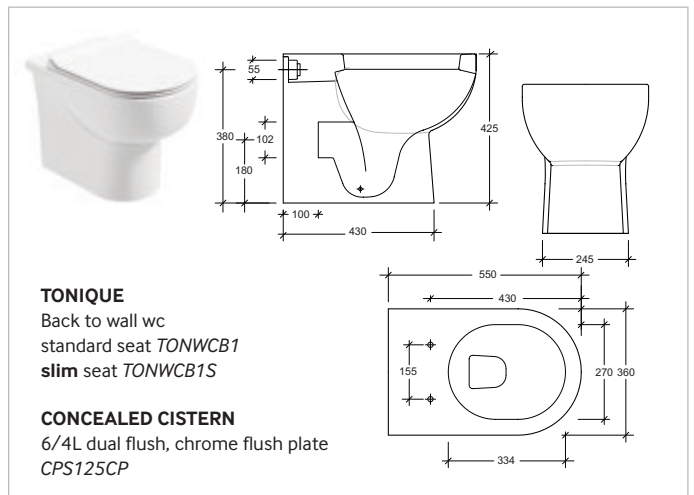

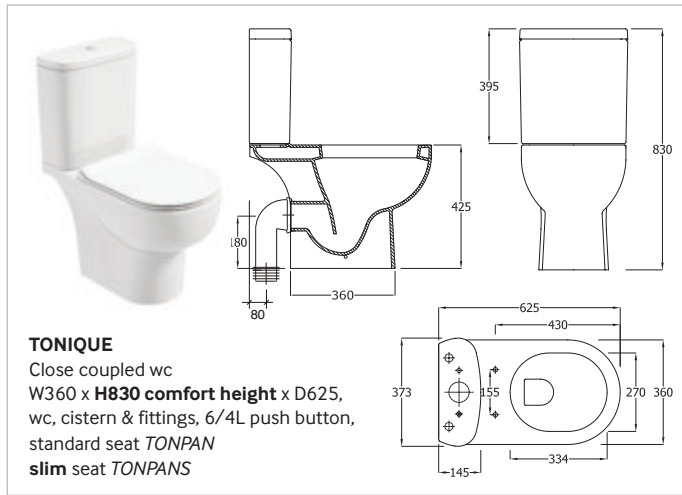

We know precision is an important part of planning your dream bathroom, that's why in the following section we have collated specific technical information on the **Sonas Bathroom** products featured in this catalogue.

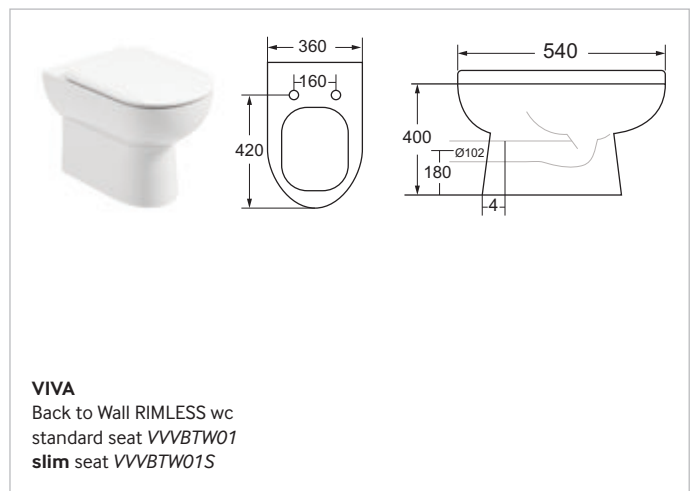

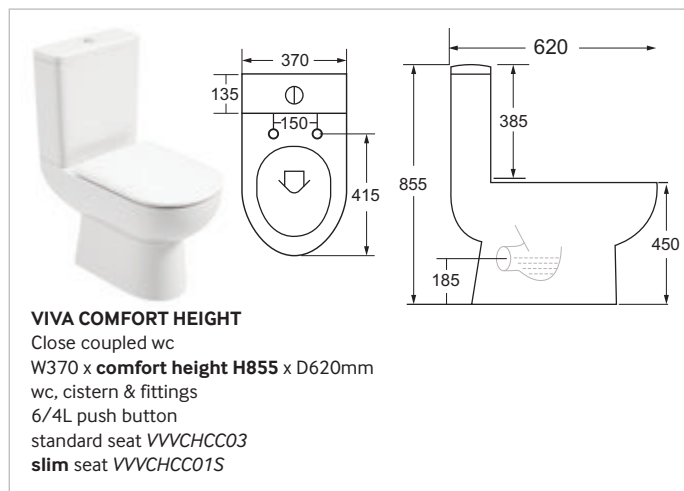

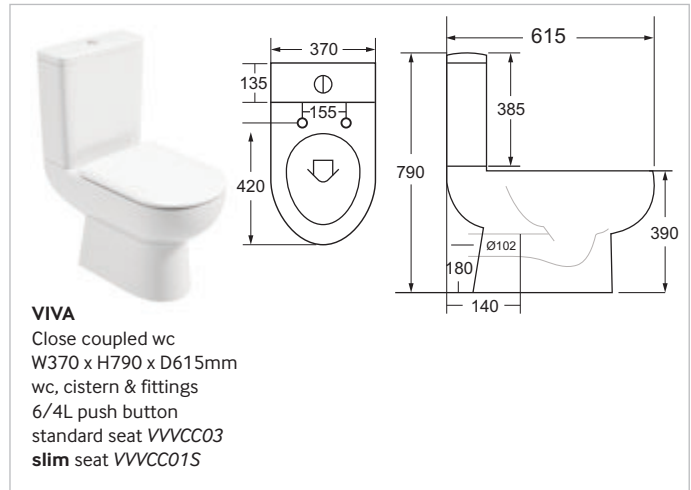

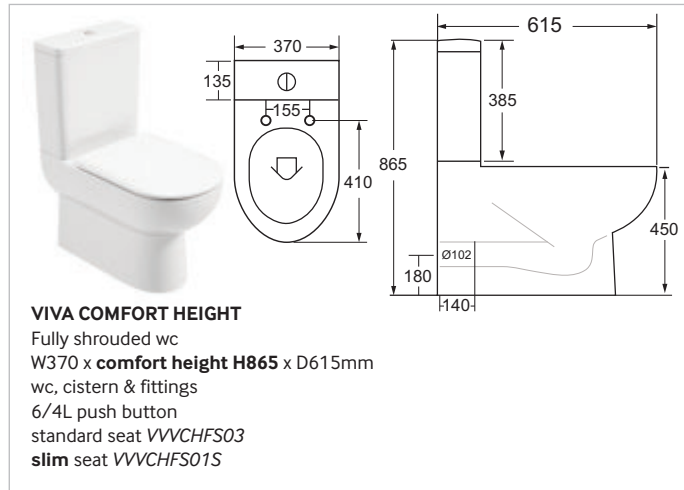

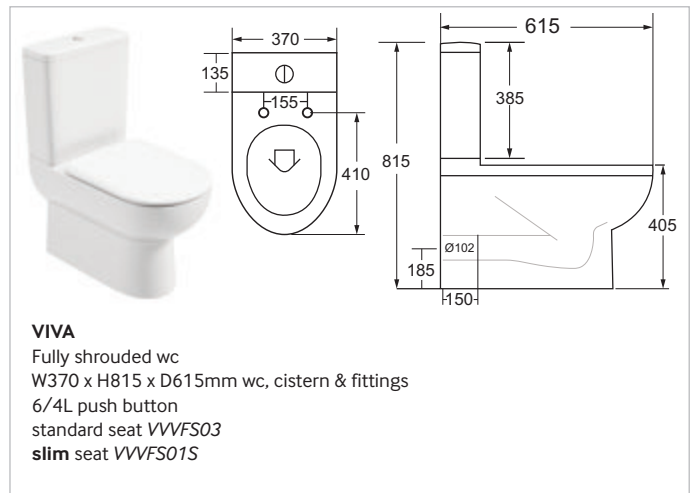

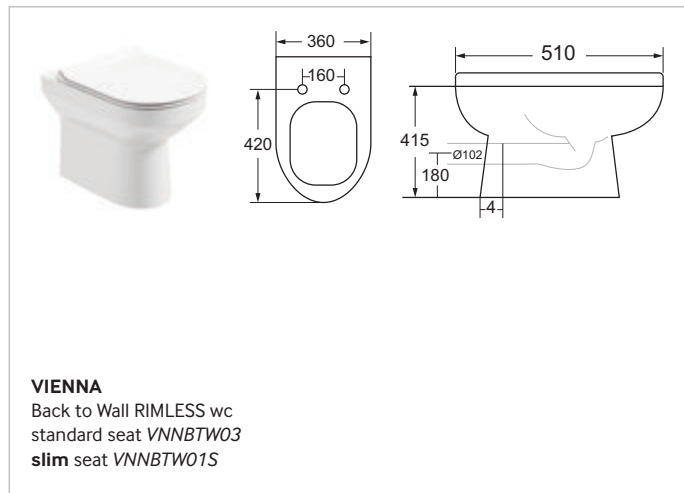

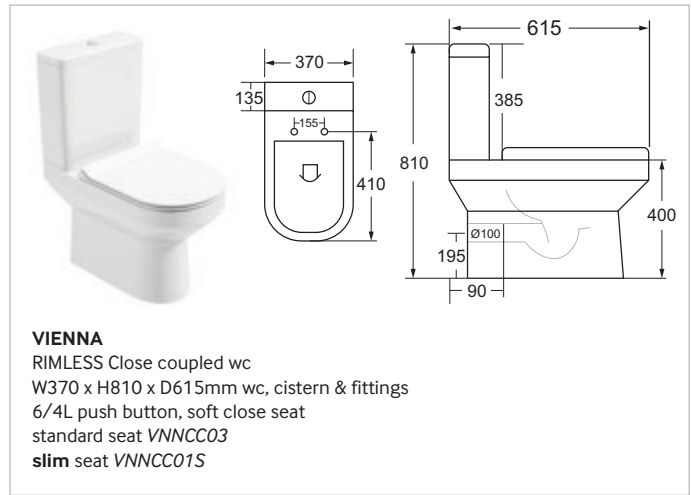

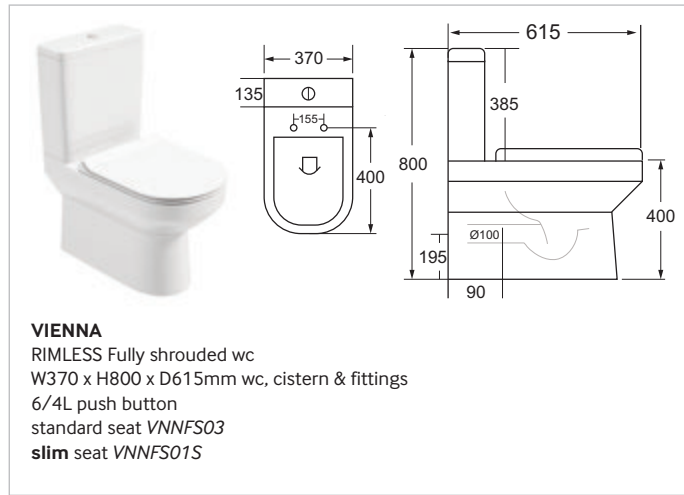

All the basic detail and information you require is presented in an easy to use format, however should you require any further information or general advice, please do not hesitate to contact your approved **Sonas** dealer.

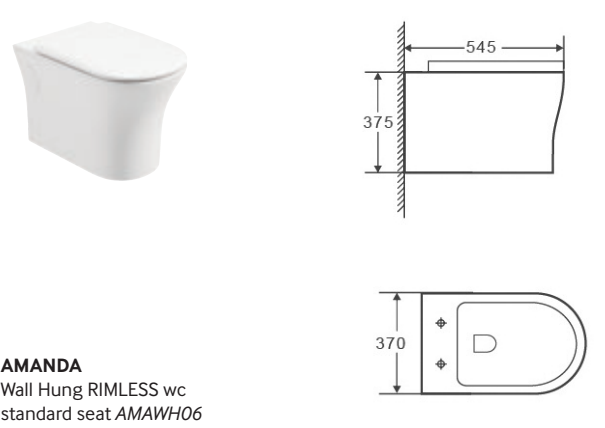

Planning tips to help you design your dream bathroom

- 1 Measure your bathroom carefully, using our grid on the opposite page draw out your bathroom space to scale.
- 2 Accurately mark out all fixtures such as doors, windows and radiators, also making note of which way and how much the door protrudes into the room.
- 3 Draw in shapes to best represent your bathroom items: wc, basin etc.

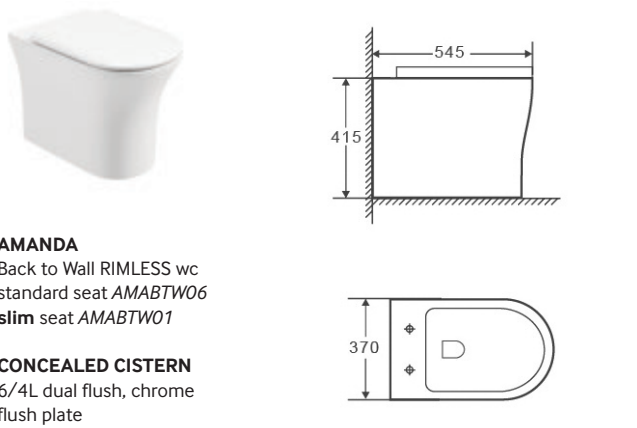

Using the scale 1 square = 200mm

PRODUCT GUARANTEES

At **SONAS Bathrooms** our products have become the benchmark for others to follow. Our ranges are specifically tailored to meet the requirements of Homeowners, Installers and Trade Professionals.

All our products are manufactured to appropriate industry standards and where required to the necessary EN standards. For your additional peace of mind, we fully support our product guarantees with our technical support and spare parts after sales service.

In the event that you do encounter a problem with a **SONAS** product please contact us with the details of the fault and a proof of purchase from the **SONAS** dealer where the item was bought and we will do the rest. All after sales or technical queries can be emailed directly to customerservice@sonasbathrooms.com which will be answered by one of our in-house qualified plumbing advisors.

Please note that above guarantee and extended warranties are applicable for goods installed in a domestic environment with reasonable usage. Any item installed in a public or commercial area will be subject to 1 Year Guarantee. Faults must be reported within the respective guarantee period from proof of purchase date.

Guarantees are limited to product defects and failures arising from the manufacturing process and does not apply to products that have been damaged as a result of transit, misuse, incorrect installation or use of abrasive cleaning products.

SONAS Bathrooms will replace any product with a visual defect or that is manufactured outside of the allowable tolerances according to EN standards, however; all products must be checked for these defects by the installer as SONAS Bathrooms will not be responsible for any refitting or refitting costs associated with replacing the product.

SONAS Bathrooms must be given reasonable opportunity to inspect the product in the installed situation, if removed the product must not be destroyed but should be retained for inspection. Photographic or video media of the product in the installed situation may be requested. Suitable access must be provided in order to reasonably and cost effectively allow for a product to be repaired or replaced under guarantee. SONAS Bathrooms will not be responsible for reinstallation of products that are tiled in to areas without suitable access.

Cleaning & Maintenance

- All products should be cared for with a regular and suitable cleaning regime.
- The use of aggressive cleaning agents should be avoided and in particular on chrome, brass and aluminium surfaces a soft damp cloth and warm soapy water is sufficient.

- Suitable ventilation should be provided and in cases of bathroom furniture materials are water resistant but not water proof, therefore regular maintenance and the removal of excess water on or around the product is necessary to avoid damage.

Exclusions of Guarantee

- Incorrect installation not in accordance with fitting instructions and best plumbing practice.
- Failure to care for and maintain product as per care & maintenance guidelines.
- Improper use of product not in accordance with the intended use and limitations of the product specifications.
- Wilful or negligent damage.
- Damage caused by specific environmental circumstances, excess or negative pressure in the line, insufficient operating pressure as per the product technical specifications, limescale or hard water, aggressive cleaning agents or chemicals.
- Consumable items such as hinges, rollers, seals, cartridges, flexible tails are subject to a 2 Year parts only guarantee.
- Scratches or defects reported post installation.
- Ex display items.

Service Engineer Call Outs

- In cases where products fail under warranty, a replacement part, product or repair will be provided for the period of the guarantee as per the table above.
- If our onsite inspection determines the reported issue is not a manufacturing or materials defect, a call out charge of €100.00 & VAT will be applied.
